Symbolic photo

- **Perfect material:** Aluminium stands for longevity, weather-resistance and has an easy-to-care-for surface.
- **Flush design:** The design of this door is absolutely flush and completely smooth both inside and out.
- **Permanent innovation & quality:** Consistent advancement of in-house product development guarantees premium products at the cutting edge of technology.
- **Optimally hidden:** A concealed door hinge as standard in the series.
- **Outstanding break-in protection:** Various different security systems up to RC2 ensure reliable break-in protection.
- **Optimised heat insulation & sealing properties:** 3-chamber frame profile, foam insulated core, and thermally separated threshold as well as 3 surrounding seals ensure superior heat and sound insulation.
